CLEANING CHEMICALS & JANITORIAL SUPPLIES - JANITORIAL CHEMICALS

FACEMASKS - PERSONAL & SOCIAL PROTECTION

Facemasks & face coverings are to be worn in public places to minimise the risk of transmission of Coronavirus (COVID-19). Coronavirus is typically spread like other respiratory infections. Coronavirus is likely to be passed from person to person by droplets when an infected person coughs or sneezes. The best available scientific evidence is that, when used correctly, wearing a face covering may reduce the spread of coronavirus droplets in certain circumstances, helping to protect others.
